MAIL

Enclosures.

14th June, 1950.

Dear Sirs,

H.M.I.S. "CALCUTTA"

I duly received your letter of the 29th May concerning the classification of the above vessel and now enclose, for your information, a photostat copy of Hull First Entry Report 51732 relating to the engines and boiler, details of which were quoted in your communication.

With regard thereto, I would inform you that provided the machinery be opened up for examination as required by the Rules for a Periodical Survey and found or placed in good condition, the alterations be carried out to your satisfaction and the machinery be tried under working conditions and found in order, the same could be accepted and recommended for the notation of  L.M.C. (with date).

It is not necessary for you to furnish a First Entry Report for this machinery.

It is noted that sketches showing alterations to the pumping arrangements and electrical equipment will be forwarded for consideration in due course.

Yours faithfully,

pro Secretary.

R

The Surveyors,

CALCUTTA
