Copy of letter from Andhra Trading Co, Bezwada,
dated the 20th October 1949, to Lloyds Register
of Shipping, Calcutta.

Sirs,

Ref - Classification of H.M.I.S."CALCUTTA".

In continuation of my letter dated 17th inst, I beg to inform you that I have found on the boiler of the above ship, Lloyds test marks and date (600 lbs Lloyds test 3-5-1943 and 450 lbs Lloyds test 3-5-1943) at two places and from this I have, come to the conclusion, that the ship is built under your supervision. Since the ship is basset class trawler, built by Hooghly Docking and Engineering Co,Ltd., of Calcutta, in 1943, and Lloyds test marks also of the same year I hope you will have all the blue prints etc in your register and will enable you to know all the details required for classification.

The ship is now being registered by Principal Mercantile Marine Officer, Madras, as a cargo carrier, I request you to issue classification and load line certificates, and furnish me the exact procedure to be followed by me.

Yours faithfully,

SD/-
