

It is submitted the Antwerp Surveyors be informed that the freeboards now assigned by the Administration de la Marine are noted.

It is observed that in the case of the "PRINCESSE MARIE JOSE" the freeboards differ from those originally assigned by this Society and they should state if the tonnage opening in the shelter deck has been closed, and if so they should forward particulars.

In the other cases it is noted that the freeboards correspond to those originally assigned by this Society.

As freeboard is a condition of the class of these vessels they should forward forms C.12(a) when the marking is amended in order that the records in the Register Book may be amended as required.
