

M.V. "DORABELLA"

IT IS SUBMITTED the Surveyors at Southampton be informed that the fee "For Classification Survey" is the scale fee for the classification of a normal ship of identical tonnage and power to the "DORABELLA".

The additional fee for "Survey of Conversion from L.C.I. to Cargo Vessel", is on account of the extra visits made to this ship for the purpose of surveying the alterations which in a normal classification would not be necessary.

The Surveyors should also be informed that the percentage of the fee due to a Non-Exclusive Surveyor is 80% for a Periodical Survey, but only 50% for a Classification Survey, and this percentage should therefore be paid to Mr. McQueen.

Due regard has been paid to the visits made by the London Surveyors in connection with this survey.
