Dear Sirs,

s.t. "VRISSI"

Referring to the correspondence exchanged regarding the steam cylinder of the circulating engine to be renewed, we beg to advise you that this has been carried out.

Unfortunately your surveyors are unwilling to visit the vessel unless given 24 hours notice. This is impossible for this type of vessel which only stays 12 hours in port for discharge or loading.

We shall therefore be obliged if you could arrange for your surveyor in Rotterdam, where the vessel will be arriving on the morning of the 27th inst. to carry out this examination.

Thanking you in anticipation,

Yours faithfully,
For & on behalf of
GEORGE NICOLAOU LTD.
