

Steamer "PORTELET"

Mr. Cecil Dorey has called in today to discuss the general question of the maintenance of class of his Fleet, and during discussion it was learnt that the "PORTELET" had been sold to be broken up.

It would be tactful for the Publications Department to confirm this statement if possible from some source other than the Owners, as Mr. Dorey is obviously very sensitive regarding this case.

No further letters should be sent to him regarding this vessel by the Classification Department for the present.
