31st January 1962

Dear Sirs,

R

S.S. "RIVER FITZROY"

In August last the Newcastle N.S.W. Surveyors reported on the commencement of the Boiler Survey, due at the end of August last and Engine Survey and stated that the vessel was to proceed to Sydney to be laid up.

In the absence of any further information I shall be glad if you will confirm that this vessel is now laid up at Sydney.

The Class is subject to the diesel auxiliary engine being repaired before the end of June, ^{last} and the Special Survey will become due at the end of March. Arrangements should be made for these matters, together with the completion of the Boiler Survey, to receive attention before the ship again proceeds to sea and I shall be glad if you will inform the Owners accordingly.

Yours faithfully,

Clerk to the
Classification Committee.

The Surveyors,
MELBOURNE
