

EXTRACT FROM WHYALLA LETTER OF

16th November, 1945.

28 DEC 1945

XR:20

"I wish to draw attention to the First Entry Report on the "RIVER MURRUMBIDGEE" wherein particulars of Chain Cable should be amended as follows:-

No. of Certificate 117676
Weight of Cable 573cwt. 1q. 4 lbs.
Date of Testing at Netherton 25/11/44.

This correction is necessary owing to the Builders' error in placing the cable of a sister vessel on board after the particulars for both vessels had been checked on the quayside. The respective Certificates for each vessel are in order. "
