on this subject to  
THE SURVEYORS

Dear Sir,

And.....

M.V. "PLASSY"  
Refrigerating Fan Motor Certificates.

With reference to the Classing Letter dated 20th January, 1953, we have to inform you as follows in regard to the three 25" Axial Flow  $3\frac{1}{2}$  H.P. Motors of Messrs. Keith Blackman Ltd. manufacture supplied to Messrs. L. Sterne & Co. Ltd., 0/Nos. 134150 and 134203.

Copies of Messrs. L. Sterne & Co's orders Nos. 134150 and 134203 have not been received in this outport, consequently we were not aware that these orders had been placed and the motors have not therefore been built under survey. Messrs. Keith Blackman Ltd. were approached in connection with this matter and they state that the wording of the order was "Lloyds survey may be required". The Firm did not, however, contact this Office for clarification.

We enclose triplicate copies of the Makers Works Test Certificates for the Motors in question and have to add that the results shown thereon comply with the Rules for Electrical Equipment and accord with the results obtained for a similar frame size which was subjected to a type test i.e. Motor No. 368690 for Messrs. Akers Mek Yard No. 483.

Order No. 134150 refers to Motors Serial Nos. 405682 & 3  
" " 134203 " " Spare Motor " " 405684.

We would add that in spite of repeated efforts by this Office and the Glasgow Surveyors, difficulty has been experienced in obtaining copies of Messrs. L. Sterne's orders on Motor Manufacturers.

Yours faithfully,

The Secretary,  
LONDON.
