

Wokingham

Motor Tanker "PONTFIELD".

In view of the fact that this vessel has not been in commission since she was completed at Gothenburg in October last and that she has been under survey by the Board of Trade and Customs Representatives in connection with tonnage and other measurements up to late in January last, it is submitted for consideration whether the date of build might be amended from 10,39 to 1,40 without a further visit being paid to the vessel by the Society's Surveyors.
