Dear Sirs,

Motor Vessel "PATELLA"

The Report of the survey carried out by the Society's Curacao Surveyor on the 15th January has now received the consideration of the Committee.

At that time temporary repairs were effected to the main engine No.6 (port) tie bolt, and it was recommended that this tie bolt should be renewed by the end of next month and that the remainder of the tie bolts should be specially examined and dealt with at the next drydocking.

The Committee have continued the vessel's class subject, inter alia, to the above matters receiving attention by the times stated, and I shall be glad to learn, in due course, what arrangements you propose to make to renew the main engine No.6 (port) tie bolt.

Yours faithfully,

^{pro} Clerk to the
Classification Committee.

Messrs. Shell Tankers,
Shell Centre,
LONDON, S.E.1.
