MEMORANDUM

From : LLOYD'S REGISTER OF SHIPPING, 71, FENCHURCH STREET,  
LONDON, E.C.3.  
UNITED WITH THE BRITISH CORPORATION REGISTER

(Ref. H.)

To: The Surveyor(s) at GOTHENBURG

Date: 18th September, 1952.

Vessel's Name : S.S. "HEIMDAL"

QUESTION.

ANSWER.

I shall be glad to learn what arrangements the Owners propose making for the Boiler Survey to be completed by the adjustment of the donkey boiler safety valves.

*LLR*

Date:— 8th October, 1952.

The Owners state that the donkey boiler will not be used unless the vessel should at some time be laid up.

They therefore propose that the class of the boiler should be allowed to lapse and that, should it be desired to use the boiler at some future date, a complete survey should be carried out before it is placed in service.

The Owners would be glad to have your views on this proposal.
