

6th September, 1949.

Dear Sirs,

H. I am in receipt of your letter of the 1st instant respecting the auxiliary machinery originally intended for the Steamer "MUNKFORS" (n.n. "TYR"), and note that the engine in question will not now be fitted in this vessel.

In the circumstances I shall be glad if you will return to this Office Leeds report No.364 and advise me later should you be informed of the name of the vessel in which the engine will be installed.

Yours faithfully,

Clerk to the
Classification Committee.

The Surveyors,

GOTHENBURG.
