

"HILARY"

Liverpool F.E. 148160.

The No. 4 Lower Hold has been insulated for the carriage of bananas, and a two unit plant, separate from the existing classed installation has been installed.

The plant has been constructed and tested and the chamber insulated under survey to approved plans, and on completion a working test was carried out which the Surveyors report was satisfactory.

The temperature qualification as recommended for this additional installation is considered in order, namely:-

"to maintain temp. 53°F with sea temp. 85°F max."

The installation is eligible for †.

19th December, 1957.
