RLT/DET

Dear Sirs,

M.S. "GLOUCESTER"

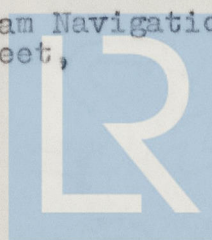

When this ship was at Sydney, Melbourne and Adelaide at the end of last year, the Society's Surveyors reported that an examination has been made of repairs effected to the main engine "A" frame on the port side, diaphragm plate and crankcase and also to No.6 unit of the starboard forward generator engine.

The case has now received the consideration of the Committee and class has been continued subject to these repairs being specially examined by the end of June 1964.

Yours faithfully,

Deputy Clerk to the
Classification Committee

Messrs. Federal Steam Navigation Co. Ltd.,
