Dear Sir,

m.v. "GLOUCESTER".

We thank you for your letter of the 31st July, from which we note that your Glasgow Surveyors have issued an Interim Certificate, to the effect that they have recommended that a record of "RMC, with date" should be made in the Register Book, upon completion of the cooling and insulation tests. We are arranging that these tests should be completed at the port of discharge before the ship commences loading a refrigerated cargo, and you will no doubt be advised in due course on the satisfactory completion of this work.

Yours faithfully,

a letterhead stamp, and you will no doubt be advised in the  
at the port of discharge before the cargo is discharged into  
cases. It is suggested that these letters should be completed  
before the cargo is loaded on the ship and the registration  
before the cargo is loaded on the ship. It should be noted in the  
that a record of the cargo is maintained in the cargo manifest  
which is kept on board the ship. It is suggested that you may  
refer to the cargo manifest for the details of the cargo.

I think you will find the letter of the 1st July, from
