S

Dear Sir,

M/V "TOMAR" -
Tri. Rpt.N°.13198

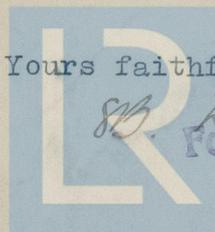

With reference to your letter of the 20th instant, we have to confirm that the thicknesses of the centre girder bottom angles and the tank top plating in the holds are 16.5mm and 11.5mm respectively as indicated on the approved plans and not as reported.

As already reported on page 4 of our Rpt. we have to confirm that the steering arrangements and windlass have been tried under working conditions and found satisfactory.

Yours faithfully

The Secretary

L O N D O N
