C

Dear Sir,

Motorship "HOLMGLEN"

Reverting to my letter of the 15th February, some further information is desired and it will be appreciated if you will endeavour to obtain particulars in regard to the Cathodic protection in this vessel.

According to Dunedin report No. 4776 Cathodic protection was fitted in October, 1959, and the following details would be very helpful to us here:-

1. The type of Cathodic protection fitted.
2. Whether applied externally or internally, and
3. A sketch showing particulars and positions of attachments to the ship's hull.

As Mr. White is no longer on the staff of this Society it may be difficult to obtain this information, but I shall be much obliged if you will see if it is practicable to furnish some comments on the points raised.

Yours faithfully,

Clerk to the  
Classification Committee.

F. E. Turpie, Esq.,  
WELLINGTON.
