

C O P Y.

22nd June, 1956

Classn(S)

Dear Sir,

m.s. "HOLMGLEN".

With reference to your classing letter of the 29th May, 1956 and 19th June last we have to inform you that the Hansa Motors were tested by us in connection with modification to the starters.

The Motors were found marked; LLOYD'S TEST HAM 10453  
23\_11-55,  
and it was therefore assumed that the motors were inspected by our Surveyors during construction.

Yours faithfully,

The Secretary,  
LONDON.
