

ROTTERDAM (CONTINUED)

29th May, 1956.

"BANDA" - Before your Rpt.17 No. 41325 receives the consideration of the Committee, I would point out that the only certificates which appear to have been received in this Office are those for the refrigerating installation compressor motors. The remaining certificates are awaited and in all future similar cases I shall be glad if you will send all relevant certificates with reports.

An early reply is desired.

"HOLMOLEN" - With reference to your certificate of the 13th January, 1956, covering the testing of fan motors for this ship's cargo refrigerating plant, I shall be glad to learn whether you have any evidence that the Hansa Motors 571604/5/6 were constructed under the Society's Surveyors' supervision at the makers' works. An early reply is desired.
