LLOYD'S REGISTER OF SHIPPING,
MIDDLESBROUGH.

1st. June, 1946

Messrs. Furness S.B. Co's Yard No.373
"EMPIRE EVESHAM"

Dear Sir,

In answer to the classing letter of the 31st ultimo, regarding the capacity of the after peak tank we have to state that the figure now reported i.e. 115 tons is correct. It appears, however, that due to modifications which were made to the two previous ships, the figure of 157 tons as reported for them was incorrect and should also be 115 tons. The two ships concerned are Yard Nos.363 "WAVE REGENT", and 364 "WAVE SOVEREIGN". We would be obliged if the necessary correction could be made to bring all three ships into line and our reports at this end will be modified accordingly.

We are, Dear Sir,
Yours faithfully,
The Surveyors,

The Secretary,
LONDON.
