Akt. Burmeister & Wain's Blrs. Nos. 2076-7

Dear Sirs,

I have to inform you that a report of survey has recently been received on the above boilers, and from information contained therein it is understood that they have been made to the order of the Portuguese Navy for a vessel named "Arsenal II".

No particulars of the above vessel are available in this office, however, and in the circumstances I shall be glad if you will kindly ascertain and let me know if it is intended for classification, the builder and Yard number, and when and at what port the boilers are to be fitted on board.

Yours faithfully,
