# Lloyd's Register of Shipping,

High Close, Wokingham, Berks.

29th May, 1943.

Dear Sirs,

I am in receipt of your letter of the 27th instant respecting the Steamer "COLDSTREAMER", but would point out that the weight of 3 cwt. 3 qrs. 21 lb. given for the first bower anchor is evidently incorrect.

According to the statutory test, as reported the weight is no less than 12 cwt. 3 qrs. 21 lb., but does not exceed 13 cwt. 0 qrs. 7 lb., and I shall be obliged if you will furnish the correct figure.

I am, Dear Sirs,  
Yours faithfully,

Clerk to the  
Classification Committee.

The Surveyors,  
HULL.
