"TRITONICA"

Dear Sirs:

I have to draw your attention to the fact that a Steampipe Survey on the above vessel became due at the end of October last. Perhaps you will be good enough to let me know what arrangements you propose making for this matter to receive attention in order that the Society's Surveyors at the port concerned may be advised.

I take this opportunity to mention that a Donkey Boiler Survey will become due at the end of this month, and as the ship was last seen in drydock by one of the Society's Surveyors in November, 1961, it is concluded that you will shortly be arranging for a further drydocking and your intentions regarding these surveys will also be appreciated.

Yours very truly,

W. G. SIBLEY
Secretary
