3 Enclosures.

10th November, 1937.

My Dear Donald,

I have your letter of yesterday regarding the First Entry Certificate on the "CITY OF CAPETOWN".

I return the certificate, and enclose the midship section and profile as received here.

The Surveyors state there is no indication on the plans of solid floors every frame amidships and every alternate frame clear of amidships, and before any alteration is made on the certificate, perhaps you will talk over the matter with the Surveyor.

If the certificate is to be altered, the enclosed plans should be amended to show the vessel as built and all the enclosed papers returned to me with your reply.

With kindest regards,

Yours sincerely,

D. M. Keith, Esq.,
LIVERPOOL.
