Dear Sir,

Steamer "HERAKLES"

Issn(S)  
RNC

The Committee have today had before them the case of this vessel in connection with the incomplete Boiler Survey, which became due so long ago as February last.

They note the information contained in your cablegram of the 18th instant, to the effect that the survey will be completed at Rangoon about the middle of next month, and bearing in mind the age of the ship, they are quite unprepared to agree to any further postponement beyond that time.

The Owners should therefore be informed that the Committee consider arrangements should have been made to complete this inspection at an earlier date, but in the circumstances they have deferred any action for the present, although they must require the inspection to be completed as now stated without fail at Rangoon, if the ship is to maintain her class.

Yours faithfully,

c.c. Rgn.

Clerk to the  
Classification Committee.

Ake Weber, Esq.,  
HELSINGFORS.
