Betrifft:

Dear Sirs,

re.: m/s "HERBRAND".

Main Engines and Boilers. Survey.

Your invoice of the 17th April 1951 amounting to £ 746.0.0 for the services of the Surveyors in connection with surveys on the Main Engines and Boilers of m.s. "HERBRAND" has come to hand here on the 19th April 1951. There were great difficulties for us, to get German Official's approval for the remittance of the forementioned amount, but we have now got it and hope that your account will be credited accordingly within the next few days.

The reason for these difficulties was the fact that your invoice for surveys between the 15th December 1949 and the 1st August 1949 was submitted nearly 8 months later, and there will be some more difficulties for us in view to the booking of this amount, for we have already settled accounts with the Owners of the "HERBRAND" for these works. This bill will make it necessary, to arrange for new discussions with the Owners or to take over the whole costs for our account. All these difficulties would have been avoided, if your bill would have been to hand latest 4 weeks after conclusion of the survey.

We therefore kindly request you to give us, in the future, your bills immediately after the delivery of the ship, but not later than within four weeks after, and with thanks for your co-operation, we remain,

Yours faithfully,

Bremer Vulkan

Schiffbau und Maschinenfabrik
