# LLOYD'S REGISTER OF SHIPPING

Port ANTWERP.

Date 5th. July 1965.

**This is to Certify** that I have surveyed part of the machinery of the ss. "ANGELIC". (ex. SEVERN RIVER) gross tons 7158 of Panama for Commencement MBS. whilst at Antwerp on the 28th. June 1965 and subsequently,

and that all my recommendations have been carried out to my satisfaction. I am reporting accordingly and recommending to the Committee of Lloyd's Register of Shipping that the machinery classification should be retained and the following survey records assigned MBS. 6.65 on completion of survey. To complete the survey the starboard main boiler remains to be examined in its entirety, its safety valves adjusted, and the oil burning system and remote controls examined. The class of the vessel is subject to any conditions at present attached being dealt with as previously recommended.  
Parts now examined:—

Port W.T. main boiler (safety valves adjusted).

*John Douglas*  
J.N.P. DOUGLAS

Surveyor to Lloyd's Register of Shipping
