AND

Dear Sir,

"GEORGIOS MANOLAKIS"

With reference to your previous correspondence of the 24th September last relative to the above named vessel we beg to advise you that all cables are rubber lead armoured and that fuses are of Siemens manufacture, in all distribution boxes these are of the reset automatic cut out type.

With regards the pump room lighting, the lamps are enclosed in welded steel frames having heavy glass ports. The joint between glass and box is maintained by a heavy rubber ring.

The Owners have been informed of your request for a plan showing lighting of main, midship tween deck space, and pump room spaces and have put the matter in hand but as yet nothing has been received at this office.

Yours faithfully,

F. J. Reul

The Secretary,
London.
