action taken or recommended should be described fully under "defects & repairs". When any part has been subjected to pressure test this should be stated.

date of the next Special Survey. Where repairs have been effected or it is considered that re-examination or repairs should be made before that date the circumstances and

The condition of any item is to be described as "good" only when it has been examined, found or placed in good condition and is considered to be acceptable until the date

I have surveyed the above-named ship in accordance with the Rules for General Examination for postponement of the Special Survey (due 1/66) until January, 1967, Wear & Tear repairs, further temporary repairs in way of the forward end of No.1 double bottom tank and Annual Load Line Survey.

Wear & Tear Repairs now done:

Tween decks:

Wasted tween deck stringer plates doubled at the following positions:

- No.2 T.D. forward starboard
- No.4 T.D. aft port & starboard
- No.5 T.D. forward port & starboard

Shell plating:

Starboard side stern plating in way of 23 ft draught mark found wasted and holed. An EW doubler of 2 ft x 2 ft now fitted.

Renewal of the doubled tween deck and stern plates at the next special survey is recommended. The plates are considered efficient meanwhile.

.....PTO

The items now surveyed are detailed on this report. All were found or placed in good condition unless otherwise stated. I recommend, therefore, that this ship remain as classed with ~~XXXXXX~~ fresh record of dry docking 1/66, subject to keel plates Nos. 1 & 2 (from forward) being renewed and centre girder in way specially examined and dealt with as found necessary, to the stringer plates (doubled) of No.2 T.D. forward starboard, No.4 T.D. aft port & starboard and No.5 T.D. forward port & starboard and to the starboard side sternplating (doubled) in way of 23 ft. draught mark being renewed all at the Next Special Survey and to any other outstanding conditions of class being dealt with as previously recommended.

(Where conditions of class are recommended to be retained, imposed, amended or deleted, particulars must be stated above and on the interim certificate.)

Rudder: (Instructions part 2a - Amendment No.3 - sketch No.2)

Clearance of top and bottom pintles in lignum vitae bushes found excessive and top pintle badly corroded. Top pintle and top and bottom lignum vitae bushes now renewed.

Bilge suction:

Bilge tail pipes in Nos. 1 & 4 holds p&s renewed. Strum boxes of suction in all holds placed in good working order. All suction tested on completion and found satisfactory.

Miscellaneous items:

175 hatchboards renewed and 5 new tarpaulins supplied.
Fiddley covers repaired.
Handrails and stanchions repaired.
Several other minor repairs effected.

S.R.L. No. 248:

"Keel plates Nos. 1 & 2 (from forward) being renewed and centre girder in way being specially examined and dealt with as found necessary before September, 1965."

Following the Owners request for further postponement of renewal of the plates until the N.S.S. the previously effected temporary repairs now specially examined.

Found some ring welded rivets slack and cement box in forward end of No.1 double bottom tank in way of damaged keel plates, fractured.

Now done:

Cement box removed. Centre girder examined and found to continue efficient. A welded doubler (shoe plate) fitted over the set up portion of the Nos. 1 & 2 keel plates. A strong cement box refitted.

The Nos. 1 & 2 keel plates, the centre girder and temporary repairs in way are considered efficient until the next special survey.

It is recommended that the present condition of class be retained with amended time limit N.S.S.

S.R.L. Appendix No.17:

Indented shell plates of 2nd and 3rd strakes below sheer at starboard side forward, F7 starboard side, F3,4 & 5 starboard side forward and G5 port side forward all specially examined and found to continue efficient.2

PARTICULARS OF DEFECTS, REPAIRS, ALTERATIONS, ETC. The reason for repairs must be stated and repairs on account of damage, the alleged cause of which must be given, should be detailed separately from wear and tear repairs and, besides being detailed above, should be noted in the following summary. *State what action has been taken regarding items which are subjects of class or in SRL Appendix, whether outstanding or new.* Any alterations to existing particulars in the Register Book should also be reported above.
