by

I have surveyed the above ship in accordance with the Rules for Examination of temporary repairs in way of the forward end of No.1 D.B. tank (S.R.L. items).

The items now surveyed are detailed on this report. All were found or placed in good condition unless otherwise stated.

S.R.L. (No.234):

Set up keel plates Nos.1 & 2 from forward to be renewed and centre girder in way to be specially examined and dealt with as necessary by 4/65.

Now done: Temporary repairs (See Karachi Report No.515) examined and found to remain efficient.

It is submitted that the Owners request to postpone the repairs until August 1965 (due to the dry dock at Karachi not being available) merits the favourable consideration of the Committee.

I recommend that this ship remain as classed with/without fresh record of dry docking. subject to keel plates Nos.1 & 2 (from forward) being renewed and centre girder in way being specially examined and dealt with as necessary before September, 1965 and also subject to all other outstanding conditions of class being dealt with as previously recommended.
