(3) Postponements already agreed:— On 19.7.63 the Yokohama Surveyors were requested to advise Owners that the Committee required at least a General Examination of the hull and machinery if scrapping was to be appreciably delayed beyond end of July, 1963. Difficulty has since been experienced by the Yokohama Surveyors in obtaining further information.

(4) New Proposal:— Owners now cable it has not yet been decided when the vessel will be scrapped and will confirm later.
