Pumping arrangements

It is submitted The plan of piping arrangements
in the machinery space has been examined and
the arrangements are such as could be accepted,
provided the water gauge connections at the
bottom be cocks instead of valves.

The plan of piping arrangements
outside the machinery space refer mainly to
cummers a sanitary piping and do not indicate
space or tank sections.

In any case they probably do not represent the
arrangements of the vessel converted to merchant
service conditions

return plan.
