Stockholm C, 31st January, 1953.

The Secretary,
LONDON.

Dear Sir,

Steamer "HELLE".

We are today forwarding our report No. 8971 on the above vessel which has been under survey at this port for Docking, Tailshaft Survey, Boiler Survey and Oil Burning Conversion.

The last visit paid was on the 4th November last, and the reason for the delay in issuing our report is that we were informed that the vessel was going to be laid up for a short while and the final testing under working conditions of the oil burning installation would take place before the vessel's departure from Stockholm.

The vessel left, however, without notice being given and consequently the installation has not been tested.

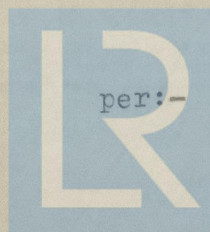

As the vessel will call at Helsingborg in a few days' time, arrangements have been made with the Owners and the Helsingborg Surveyors to complete the survey in a near future at that port.

Yours faithfully,

THE SURVEYORS,
