Dear Sir,

RECL

25 FEB 1960

Drilling Rig "TRITON".
Clelands (Successors) Limited Yard No. 243.
Newcastle First Entry Hull Report No. 116795.

With reference to Classification C letter of the 19th instant requesting a report 4c covering pumping arrangements for the above drilling rig, we have to confirm that the pumping arrangements have been installed in accordance with the De Long Pumping Arrangement Plan No. D2233/12/3 approved London letter 29th June, 1959, and on completion of installation tested under working conditions and found satisfactory.

As Report 4c referred to in your letter has no reference to pumping arrangements, and also in view of there being no propulsion machinery in this case, we submit this letter, regretting that the above information was not included in the 1st Entry Report No. 116795.

We are, Dear Sir,
Yours faithfully,
THE SURVEYORS.
