18th November, 1960

Classn. (H)

Dear Sirs,

Drilling Barge "TRITON"

I have your letter of the 15th November, the contents of which have been noted, and would inform you that this drilling platform was built in the United Kingdom for service on lake Maracaibo and the class A1 "Lake Maracaibo Service" recommended but was not assigned pending the receipt of a report on the condition on its arrival at Maracaibo.

In September Shell Tankers Limited stated that the platform was not to be used in lake Maracaibo and would instead operate in the North Sea and for this service certain modifications would be required. They added application would be made in due course through the Society's Rotterdam Office for amended geographical service limits.

Yours faithfully,

Clerk to the
Classification Committee.

The Surveyors,
ROTTERDAM.
