Dear Sirs.

L.M.S. FALSTRIA.

In your last appendix to your register book we note, that the date of completion for this ship is given as Sept. 1914, whereas the real date is March 1915. The date for the machinery is stated correctly as March 1915.

We are well aware of that this is due to the fact that the launching took place as early as March 1914, but we beg to ask you kindly to take under consideration to alter the date for the ship to March 1915 as we find it very impractical for future surveys etc. to have two different dates for the same vessel and furthermore we do not wish of course to have the vessels age increased 6 months.

Looking forward to your kind reply.

yours faithfully.
