Classn. (S)

21 JUN 1960

Genoa, 18th June, 1960.

Dear Sir,

" MARIA LETIZIA G. "

Enclosed herewith is a translation of a letter received from the Owners of the above vessel, which is now laid up at Taranto.

The Owners state that they have been offered a charter (for 2 years) for carrying grain and included in their letter is a list of the alterations etc. which they intend to effect to fit the vessel for this service.

It will be noted that no reference is made to ventilation. They do not propose to fit any ventilators to cargo holds because they have been informed by the charterers that only maize requires special ventilation and this will not be carried as a cargo.

The owners also express the hope that with the alterations proposed they will be able to maintain the tanker draft.

We shall be grateful to be informed of the reply to be given to the Owners and it is assumed that a statement of all surveys which would have to be effected before putting the ship into commission should be included.

Yours faithfully,

The Secretary,
London
