

"MIRADOR"

Mr. Woodward of Messrs. S.G. Embiricos Ltd., telephoned this office today and stated they have received a cablegram from their representative requesting them to approach us with a view to the Istanbul Surveyors being instructed to issue their damage report as soon as possible.

Mr. Woodward stated that he did not understand the message as, from information which he had in his possession, the survey is not yet complete. It was agreed, however, that we would cable to Istanbul and ask for further information.
