

M.S. "EMPIRE SALVAGE"
(ex "Papendrecht").

S.S. "EMPIRE GARDEN"
(ex "Gedania").

These ex German vessels were captured by the British Navy during the War and at the request of the Admiralty it was agreed that no particulars of Class should be recorded in the Register Book but both vessels have continued to appear in the Book under their former names. Current information concerning the vessels appears only in the "Ghost Book".

Should the vessels now be inserted in the Register Book under their present names with corresponding cross entry against their former names?
