Dear Mr. Sladden:

*Empire Salvage*

I duly received your letter of the 8th ultimo in confirmation of your cablegram of the same date regarding the vessel taken over by the Admiralty about a year ago, on which you were warned that it was particularly desired not to publish her origin.

We have dealt with the case accordingly, and the certificates issued simply refer to her as job 1064 as she was described at the repair yard here.

We have not submitted this particular case to the American Committee, and the report is being dispatched to you by Diplomatic Air Bag, as a security measure.

With kind regards,

Yours sincerely,

*[Handwritten signature]*

R.J. Sladden, Esq.,

WOKINGHAM.
