

"EMPIRE SALVAGE".

This vessel is a sister vessel to the "PENDRECHT", which is of recent construction and was classed #100A1. She has now become a prize, and the Managers are understood to be Messrs. Gow, Harrison & Co.

The NEWCASTLE Surveyors have requested to be advised as to her position respecting classification. No approach so far has been made to this Office regarding examination or classification of the vessel. The case could, however, be suitably met by arranging for a General Examination to be made by the Society's Surveyors at a time and place convenient to the Owners.

To facilitate the classification of the vessel - assuming this to be desired - a First Entry Report on which the scantlings, riveting and other particulars have been indicated, has been prepared in this Office and this might be forwarded to the Surveyors so as to permit of the items on Pages 1 & 2 being checked and the remaining items on Pages 3 & 4 of the Report filled in as far as practicable.

It is submitted action be taken accordingly.
