

"NOORDAM"  
Rotterdam F.E.38815.  
-----

See later 3.2.55

The temperature qualification recommended by the Surveyors for the additional refrigerating installation is in order, namely:-

"to maintain temp. 15<sup>0</sup> F with sea temp.  
86<sup>0</sup> F max."

The particulars of the additional installation as given by the Surveyors for entry in the R.B. should be amended in the following respects:-

<u>No. of</u> <u>Compressors.</u>	<u>System.</u>	<u>System of</u> <u>Refrig.</u>	<u>Ice Melting</u> <u>Capacity.</u>
6	Dichloro- difluoro- methane	(1) Direct expansion and air.	12.5

Note. The above is also eligible for the "F".
