Periodical Surveys, when held, must be reported in detail and serially in the terms of the Rules and items remaining to complete the Surveys should be summarised. State clearly the cause of Repairs, if any, and, in detail, the nature and extent of Examinations and subsequent repairs. Repairs on account of Damage (the cause of which must be stated) should be separated from Repairs due to other causes; and besides being detailed in the body of the report, should be summarised in the form shown below. Whenever the replacement of Anchors or Chains is reported the particulars should be clearly stated in the space provided on the back of this form State also the dates and initials of any letters respecting this case

In damage cases where the Surveyor has not made a special damage report he is required to state whether he offered his services for this purpose and to whom and why they were declined. Society's Freeboard (if assigned) as painted on Ship and now verified _____ ft. _____ ins.

Was a damage report made by anyone else P if so, by whom?

REPAIRS, OR EXAMINATION AS PER RULE FOR Damage stated to have been sustained through the ship having encountered heavy weather during the 30th October and 1st November, 1956 whilst on a voyage from Middlesbrough to Ipswich. See also Ipswich Report dated 3.11.56.

Found (Port Side) (After removal of cement box) Shell plate No.5 from forward in the 1st strake below the sheerstrake holed in way of the heel of a frame.

Temporary Repair. Welded doubler fitted externally over holed plate. It is submitted that the above damage be specially examined at the next drydocking and dealt with as when considered necessary.

General Observations, Opinion as to Class, Recommendation, &c.:

State clearly whether any and, if so, what alteration is suggested to be made in the existing classification and notification of the vessel in the Register Book consequent upon this survey, thus, for example:— "to remain as classed in the Register Book without fresh record of Survey," "to remain as classed and to have record of survey, 1.38," or "to remain as classed and to have record of survey, 1.38, and the notations of ss No. 1.38."

This ship so far as now surveyed is eligible in my opinion to remain as now classed, without fresh record of drydocking, subject to No.5 shell plate from forward (P.S) in the 1st strake below the sheerstrake (now doubled) being specially examined at the next drydocking and dealt with as when considered necessary and to all other items at present attached to the ship's class being dealt with as previously recommended.
