February 13, 1962

Att: Mr. E.K. Harkna

Dear Sir:

"GEM"

Thank you for your letter dated February 8th concerning Machinery Survey on the above ship. It is noted that the auxiliaries including compressors and air receivers will be made available for survey in Mobile or Beaumont during next week, or at a U.S. East Coast Port afterwards.

With regard to inspection of the main engine, it is considered that the Chief Engineer's suggestion that he could prepare two (2) cylinders at a time, starting at the first opportunity when the ship is in port for at least two (2) days, is acceptable, and we trust that it will be possible to carry out these inspections at an early date.

Yours faithfully,

RRH:b

R.R. HOLTUM
Principal Engineer Surveyor
