.....

Owners:- Messrs. "CORRADO" Soc. An. Di Navigazione.

.....

These vessels hold the dual classification of the Registro Italiano and this Society. There are no surveys due on the hulls.

Mr. J. S. Ormiston, the Society's Principal Surveyor for Italy, forwards a letter from the Owners stating that they have decided to withdraw the classes of these steamers. They add a request that the Surveyors should "send to your Head Office our thanks for the courteous attention we have always received". Mr. Ormiston states he understands the decision has been taken with the greatest regret, for reasons of economy and other reasons not unconnected with the present situation.

The Classing Committee had the cases before them on Friday, the 19th instant, when they decided to give instructions for the vessels' classes to be withdrawn from the Register Book and three dots (6,36) inserted in lieu thereof in each case, indicating withdrawal of class at owners' request.
