The
LLOYD'S REGISTER OF SHIPPING
71, Fenchurch Street
London, E.C.3

Dear Sirs, s.s. "TASSIA"

With reference to the interim Certificate of your Glasgow Surveyors of 22nd September 1965, we note that a condition of class was imposed regarding 45 fathoms of chain cable to be renewed.

It is understood that this condition was still noted in your Surveyor's records erroneously, since it was dealt with previously and the ship was free of such a recommendation. For your information when the chain cables were ranged in this port, the mean diameter measured of Nos 1, 2 & 3 lengths port side were 45 mm, 42,8 mm & 42,8 mm respectively, which it is, we understand, above renewal size.

We trust that the above are clarifying the matter sufficiently and we expect that you will confirm that the chain cables are now in order and that the Special Survey has been completed.

With thanks for your kind attention, we remain,

Yours faithfully,

(A. Catsogeorgis)
Manager.
