DHGE/CB

Dear Sirs,

S.S. "TASSIA"

To entitle this vessel to a notation of Special Survey 5.65 90 fathoms of worn chain cable require to be renewed by the end of the present month.

In a cablegram received today the Owners have stated that this chain cable will be renewed on the vessel's arrival at Grangemouth this month, and I shall be glad if you will make the necessary arrangements in this respect.

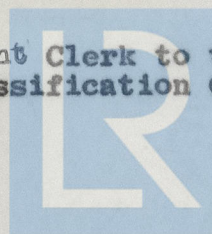

At the same time I would refer you to Special Reasons List No.240 and have to point out that the condition of class relating to the verification of 45 fathoms of chain cable is in error and the Owners have been informed accordingly.

To complete the Main Boiler Survey for a notation of MBS 5.65 the safety valvessprings of both main boilers require to be renewed. The Owners have stated that these would be dealt with next month, and the limit has been extended accordingly. A record of Engine Survey 5.65 has been assigned.

Yours faithfully,

Assistant Clerk to the  
Classification Committee.

The Secretary,  
GLASGOW.
