Answered 2 JAN 1923

M. LINKLATER, Esq.

CAEN

Dear Mr. Linklater,

At the request of the Chantiers Navals Français, I have taken tensile and bend tests from each of 3 ship plates bought by them from the Ateliers et Chantiers de la Loire at Saint-Nazaire, and intended for the repair of damage sustained by their S/S "SAINT-BONIFACE".

All the tests were satisfactory and each plate has been stamped in one corner and in centre :

L.R.
1-2 or 3
G.A.L.

Kind regards,

Yours faithfully,

Geo. A. Laing
