LLOYD'S REGISTER OF SHIPPING

al

Port Naples

Date 13th February 1967

This is to Certify *that I have surveyed part of the machinery of the S/S "GRIFONE" 6724 gross tons of Naples for MBS and General Examination for postponement of ES, whilst lying afloat at this Port on the 6th February 1967 and subsequently*

and that all my recommendations have been carried out to my satisfaction. I am reporting accordingly and recommending to the Committee of Lloyd's Register of Shipping that the machinery classification should be retained and the following survey records assigned MBS (with date) when the survey has been completed and to have the Engine Special Survey (due 12/66) postponed until some-time before 12/67, subject to any outstanding conditions at present attached to her class being dealt with as previously recommended.

Parts now examined:—

For General Examination

- Pumping arrangement
- Megger test of electrical equipment
- Machinery working
- Some parts of machinery opened up for maintenance routine.

For MBS

- Port boiler throughout with valves and fittings, and safety valves adjusted under steam.
- Oil burning system and remote controls examined working.

To complete the MBS, the starboard and centre boilers remain to be examined throughout and their safety valves adjusted.

(P. Arena) *P. Arena*

Surveyor to Lloyd's Register of Shipping
